ANZAOMS 2012 will be held from
11 – 13 October 2012 at the Sofitel
Sydney Wentworth, Australia.

2

ANZAOMS

The 2012 conference program will be filled with high quality content, featuring engaging speakers across a range of disciplines. Dr Bryan Bell from Portland, Oregon will be presenting on 3-D planning for orthognathic surgery. The meeting will be very much “future focused” and will delve into new technologies and changes in Oral and Maxillofacial surgery. The scientific program is to be complemented by an exciting social program showcasing this vibrant city.

Sydney will serve as the backdrop to ANZAOMS 2012, offering world-class theatres, great shopping, museums, art galleries and restaurants featuring cuisines from around the world. From climbing atop the famous Harbour Bridge by day or night to a magical performance beneath the ‘sails’ of the iconic Sydney Opera House, a leisurely ferry ride across to Manly or Taronga Zoo or time well spent on one of the many breathtaking beaches, Sydney has something for everyone.

Discover any one of the city’s five surrounding national parks, art and culture of the historic Rocks precinct or the colour and life of Darling Harbour with its many attractions and waterfront bars and restaurants.

As Australia’s oldest and largest city, Sydney welcomes ANZAOMS 2012 delegates to experience all it has to offer.

*We look forward to
seeing you in Sydney!*
