

A conference structured for specialists working in Critical Care.

Critical Care 2010

27 – 30 September 2010 Salt Village, Kingscliff NSW Australia

The conference will include a mix of presentations from leading national practitioners, supported by hands-on workshops. The program will incorporate three major themes:

- Renal Replacement Therapy
- Cardiac Echo and Ultrasound Guided Procedures
- Haemodynamic Monitoring

The conference is kindly sponsored by the Northcare Foundation. The Foundation was founded in 1997 to support education and research in the Intensive Care Unit at the Royal North Shore Hospital.

This conference will give you the opportunity to interact with your peers and hear the latest developments in Critical Care Medicine in a uniquely structured program. The venue for the conference, Salt Village, is likely to be heavily booked at the time of the conference due to the school holidays. Therefore, when the registration brochure is released in March do not delay in registering for the conference and booking your accommodation on the registration form.

The conference will be of interest to Critical Care specialists throughout Australia, so please note the dates in your diary now!
